**76%**

Said they would consider working for an organisation they met.

## MOST POPULAR

The Aurora discovery lab was fascinating and the person who talked us through the models in the lab explained things very clearly!

THANK YOU!

Talking to actual apprentices was really helpful, because they really helped guide you through their application process.

[The event] has truly exposed me to a whole new world of understanding I didn't know before regarding STEM.

**89%**

Would definitely attend another event (remaining 11% said they might)
